the future.

i.APPY®  
FOOD RETAIL DELIVERY

# CONVEY YOUR BRAND AT EACH DELIVERY

---

Deliver your products directly to your customers with a three-wheeler converted to electric that allows you to easily access **city centers and restricted traffic zones**. The **high load capacity** and the **specialized outfittings** allow you to carry out numerous deliveries while preserving your product in the best way.

However, **i.APPY®** is not just a vehicle for deliveries, but also an extraordinary **communication tool**. It is a real and true moving advertisement that simplifies your work and improves the **quality of your services** and also the customer's perception towards your brand.

**Each delivery is an opportunity  
to make yourself known.**

# WHAT DIFFERENTIATES AN i.APPY® FROM A SIMPLE COMMERCIAL VEHICLE?

---

## ECOLOGY

You can access city centers and restricted traffic zones.

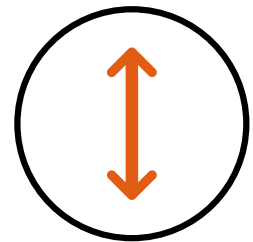

## SIMPLE DRIVING

Drivable with an A1 and B driver's license from 16 years old.

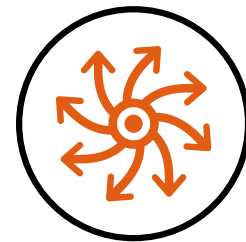

## HIGH LOAD CAPACITY

3 m³ volume and 450 kg load.

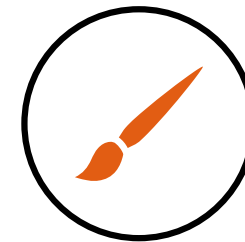

## PARKING GARAGE OK

Being just 199 cm from the ground it can access public parking garages.

## VERSATILITY

Each outfitting can be integrated with specific instruments for your product.

## CUSTOMIZATION

Each element is customizable to make your brand more visible in every situation.

# CUSTOMIZE YOUR i.APPY®

Personalize your three-wheeler converted to electric to make your product deliveries unique.

## BRING YOUR BRAND WITH YOUR PRODUCT

A unique **patented design** with formidable appeal, an icon of **Made in Italy** that adds value to the product.

Every detail is important for your brand.

Give your i.APPY® an identity and **customize it** by choosing the **color** and applying your **graphic design**. Make your outfitting unique with **accessories that simplify** your work by **increasing productivity**.

### WHAT CAN YOU CUSTOMIZE?

- the paint job
- attachable graphic design
- the outfitting's internal typology

*Each product finds its space  
inside our outfitting.*

- Lashing rings
- Backup battery accessories

# FAQ

---

- How can I charge my i.APPY®?

The inside of i.APPY® is equipped with a battery charger that is connectable to a simple plug.

- Does i.APPY® pay to enter restricted traffic zones or park within blue lines?

Being electric, i.APPY® is free to access all the areas closed to motorized vehicles and you don't pay for parking.

- Are the cold and warm modules replaceable?

Yes, of course. You can remove your warm or cold module to make your i.APPY® fit for other types of delivery. When you want, you can then put the original module back in place.

- Can I go on the highway or freeway with my i.APPY®?

No, it is not possible as this vehicle category does not allow it.
